Quick Learner, Attention to Detail, Problem solving.

EXPERIENCE

HNG, Remote- *Frontend Intern*

October 2022 - December 2022

- Worked with React.js, GitHub, Slack, and Google Meet.
- Worked with Designers to create pixel perfect wenpages from Figma designs.
- Performed Tests on components
- Integrated components with other devs to build a functional web Application.
- Contributed to some open-source projects under the company.

Nigerian Petroleum Development Company Limited, Benin- *Frontend Developer*

August 2021 - September 2022

-
- Determined the structure and design of web pages.
 - Worked predominantly with Reactjs and Node.js
 - Focused on optimizing user experience and allowing it to determine design choices.
 - Developed features to enhance the user experience.
 - The web application was constantly optimized for smartphones.
 - Built highly performant and reusable code for sub and future use.
 - Optimized web application to be performant and scalable.
 - Ensured consistency and effective documentation of the code base.

Nigerian Petroleum Development Company, Benin- *Intern*

April 2021 - July 2021

- Installed and configured computer hardware operating systems and applications to monitor and maintain computer systems and networks.
- Talked to staff or clients through a series of steps, either face-to-face or over the phone, to help set up systems or resolve issues.
- Troubleshoot system and network problems, diagnosing and solving hardware or software faults.
- Escalated user password/account issues to appropriate sub-unit.
- Responded within agreed time limits to user requests

EDUCATION

University of Benin, Edo State - *B.ENG (Second Class Upper)*

NOV 2016 - DEC 2021

PROJECTS

- **PWA-Student Information Management System(React, NodeJS):** Optimized a student information management system using a PWA architecture, to boost student and staff engagement while reducing the administrative workload on the course advisers.
- **Blood Bank Management System(React, NodeJS):** A web application where hospitals are paired with potential blood donors nearby, who can book appointments to donate blood.
- **Student Transcript Generator(C#, MYSQL):** A desktop application to generate a copy of student's transcript.
